Painting Record

These details are taken from Leslie's comprehensive records, listed in chronological order. However it has not been easy to link many pictures with the record since he painted several versions of favourite themes, often with the same or a slightly different title. He also seems to have ignored some preliminary sketches which have since come to light, and probably others which he did not think came up to scratch, but which nevertheless have survived. Also many of the photographs we have, taken in various circumstances, do not note title or size. Except in the very few cases indicated (eg 001) they are all oils. Sizes in inches.
